

Updated July 24, 2018.

How to test for demons, and how to get free.

If you are hearing any voice speaking in your head that is not yours, it is nearly certain that you have evil spirits living inside of you. These are either demons or familiar spirits from other people. The Holy Spirit can speak to people, but if the voice that you hear is controlling, unloving, vulgar, or telling you to do things that are against God's word, then you know that the entity is not of God. This is a sure sign that you need deliverance. The medical diagnoses of split personalities, MPD, multiple personality disorder, or SRA, Satanic ritual abuse, are actually demonic. Only Jesus Christ has the keys to complete deliverance and freedom. Medications will only suppress the demons. If allowed to prevail in an individual, these spiritual entities can be used by Satan to manipulate and control people to do horrible things to themselves and those around them. It is vitally important to recognize that humanity is plagued by these evil spirits, and even more important to know how to remove them. No one is immune, even the most sanctified Christians can and do have demons.

Everyone needs deliverance.

As people go through life, they often accumulate unwanted spiritual entities for various reasons, especially from the time period before they were saved. If you endeavour to serve the Lord in any serious capacity, Satan will also assign demons to stop, if he can, or at the least, slow you down. Satan has hidden his presence, but once you know that he is there, you can be free in a relatively short amount of time. It may take longer if you have more demons, but with the Lord it is possible if you have a repentant heart and the right attitude.

The Holy Spirit's role in freedom.

The Bible tells us that where the Spirit of the Lord is, there is freedom. This is true in both nations and people. Only God's Spirit can set you free and deliver you from evil spirits. It is important to remember that it is the Holy Spirit who is responsible for facilitating the removal of these entities. The Holy Spirit is a person, God's spirit, living inside of you. The Holy Spirit is the one who sends the evil entities, who are also people living inside of you, away. Zechariah 4:6: Not by might, nor by power, but by my spirit, saith the LORD of Hosts. Never make demands or order the Holy Spirit around. When you speak to the Holy Spirit, you are speaking to God inside of you. He should be treated as a person, from a sincere heart with gentleness, kindness, respect, reverence, thanks, and praise for his help.

Demonic warning signs.

Unwanted voices are one of the primary warning signs indicating the presence of evil spirits in a person's body. If you experience feeling of things moving around and crawling on your skin that are not in the natural world, or shooting needle like pains in different parts of your body (fiery darts), unexplained rashes and allergies, and uncontrollable body shaking, vibration, twitches, jerks and spasms, these are all signs that evil spirits have taken up residence in your body. Chronic headaches and migraines may be demonic. If you keep hearing the voice of a person telling you

something over and over in your head, this is a good sign that you have the familiar spirit of that person living inside of you. For example, if you keep hearing your mother in your head, it is likely that the familiar spirit of your mother is inside of you. That spirit needs to be removed. If you feel extreme emotions, or emotionally tormented by an individual, resulting in mood swings, crying, or distress, then you likely have the familiar spirit of that person. Once you remove the familiar spirit of that person, you will no longer experience these issues, and you will experience God's peace in your life.

What do these demons do?

The demons and familiar spirits create physical, mental, and spiritual problems for their hosts. The assortment of physical problems that they can create are comprehensive. It is likely that most health problems are created by these entities. Mental problems are created when entities whisper over and over to their host things that they want them to do or say. This is mind control through the repetition of ideas. This repetition often takes place in the sub-conscious mind, or during sleep, when the host has no idea it is taking place. These entities may also siphon off the energy from their hosts, leaving them tired and drained. They will torment them and keep them from having a good night's sleep. They might make a victim restless, give them nightmares, and other afflictions instead of a restful night's sleep. If the host takes alcohol, drugs, or other substances that reduce their control over their body, then these entities can take over control of the human body and inflict even more damage. Spiritually, these entities will darken and block the individual from accepting the Lord Jesus Christ and from recognizing and accepting the priceless free gift of eternal life.

Satan's army: Demons and the lost souls of men (familiar spirits).

Satan uses evil spirits and the souls of lost people who are not spiritually born again to hurt God's people in this world. In the natural world, it is often impossible to detect the wolves in sheep's clothing without God's discernment. Like many things in life, without God's help, we cannot know the truth. However, if God shows you that a person is actually doing evil, then we can bind that person the same way that we bind a demon. Pray that God would bind their soul from doing harm to you in the spirit world, otherwise, they can be used to do harm to you spiritually. That means that every time you are about to go to church, work, or some other place where you know there are evil people, witches, warlocks, or people who are genuinely evil, pray that God would bind their souls from doing harm to you in the spirit realm.

Sexual abuse opens doors to demonic infestation

Many people today have been sexually abused at an age when they were too young to remember. They have been suffering ever since. This is why we need to pray for the Lord to reveal to us the source of our problems. He is good to us and will do so through words of knowledge, dreams, and visions. If you sincerely want to get free, he will show you how.

Is there a formula for getting deliverance?

There is no set formula for deliverance because every person is different. Every person has a different history and has suffered different trauma and abuse throughout their lives. However, there are prayer patterns and strategies that can be applied to most situations to get started. These are outlined below. Whenever you get stuck and do not know how to proceed, always rely on prayer to the Holy Spirit to reveal what is impeding the progress and what the next steps should be.

What is the difference between a demon and a familiar spirit?

A demon is an entity that lives in the spirit world that works for Satan. A familiar spirit is a spiritual entity that enters a victim as a result of physical or mental abuse, witchcraft, or for other more benign reasons. Familiar spirits are identified by the name of the abuser. For example, if a victim was sexually abused by their neighbor, the familiar spirit of the neighbor would be inside of the victim. The familiar spirit can be identified by calling the name of the person who inflicted the abuse. It does not have to be sexual, a person may get a familiar spirit from a family member or even a co-

worker. Familiar spirits may enter if one family member is jealous of another, or through the use of guilt and manipulation, or other behaviors that are not exemplifying the fruit of the spirit. Sometimes the familiar spirit of a person can enter with no real obvious cause. No matter how benign they may present themselves to be, they should not be in your body and need to be removed.

Familiar spirits are different from demons, but the process of removing them is similar, and both rely on prayer and the power of the Holy Spirit within. Greater is he who is in us than he who is in the world. The worst familiar spirit to have would be one of a witch or occult practitioner. They can use their presence in you to launch spells and witchcraft attacks on you and those in your environment, which is why it is critical to remove them as quickly as possible. It is possible that you may have been attacked by multiple witches at your workplace and did not even know it. If this is the case, you are in serious need of deliverance.

It is important to understand that if you have demons and familiar spirits inside of you, you may wonder why God's protection is not working. God's protection works to shield us from evil that is external to us. But, if we have the enemies already inside, which is the case with many people who are born again later in life, then these enemies inside of us work to torment and make life miserable for believers. Once you remove the demons and familiar spirits using the strategies outlined below, then you will experience God's peace, and his protection through daily prayer will keep you free from acquiring more evil spirits. However, if you are seeking to serve the Lord in a serious fashion, then you will be a target, and may need to rely on these strategies frequently to fend off Satan's attacks.

Communicating with demons: The subconscious mind vs. physical manifestations

The human body has been described as a machine that a ghost can operate. In deliverance, sometimes demons manifest and take over a person's vocal cords and body. In these cases, it is easy to know what is going on because you are dealing directly with the demon. You will know when a demon manifests because the person will frequently change personas, inflections of voice, and mannerisms. While a demon is manifesting, they will take over the person's body as if it was their very own.

In most cases, demons do not manifest. What can we do then? The key to deliverance in these situations is to speak to the subconscious mind, which is where the demons live. Asking questions to the subconscious mind of an individual is entering the house of the strong man. The key to this process is described below, and is a very easy way to detect and remove these entities and is not scary at all. It is important to be confident, trusting in the delegated authority of the Lord. When the spirit inside of a demon or familiar spirit speaks to the subconscious mind, it usually sounds like a whisper in the mind of the individual being prayed for. It may sound muffled or faint, but it is there. Sometimes the person being prayed for will feel as if the entity is controlling their lips, or like the words from the entity are almost being downloaded to their brain.

Checking for demons.

The first thing that you need to do is find a quiet, private place with no distractions, music, or other interference. Distracting noises will greatly complicate the process, so wait until you have a quiet environment. Early morning is often a good time. Then, get very still. Listen to the thoughts that arise in your sub-conscious mind, which is where the demons live. The following checks will reveal their presence if you have any. You can do this by yourself, or you can have a trusted Christian friend or relative do the checks. If another person helps you, have them do the following checks while you are still and see what comes to mind. If the voice you hear is contrary, spiteful, or vulgar towards the things of God, they have shown their hand and given themselves away. Then move on to the removal step.

Demon check 1 - Sing

Sing the song "Oh the Blood of Jesus" several times. If you do not know how it goes, look it up. This song should greatly upset any evil entities living in you. Did you hear them in your mind? If you heard them, then they would say

something like "shut up," "stop that," "stop singing that stupid song." They cannot stand to hear about the blood of Jesus. You will likely hear foul language as well. This is a sure sign that you have demons. Do not feel bad, most people do.

Oh, the blood of Jesus. Oh, the blood of Jesus. Oh the blood of Jesus makes [your name] as white as snow.

Demon check 2 - Praise God

Start praising the Lord. Thank and praise God over and over for different things in your life. Be sincere. If you have demons, this will likely eventually get a negative response in your mind.

Demon check 3 - Read the Bible Out Loud

Start reading the Bible out loud. If you hear negative responses in your mind, such as, "You don't believe that," or, "That's stupid," or something similar, then you have definitely have demons.

Demon check 4 - Do a physical scan and a mental scan. Demons create a variety of bodily aches and pains. If you have something specific, you can address the entity (Step 4 below) by the name of its function. For example, "entities giving me a headache, what is your name?"

Creating a List of Demons - Detecting Demons by Function

Survey your life and create a list of the emotional and physical issues that you have. If you have uncontrollable fear, then you would want to check for a spirit of fear. If you are addicted to alcohol, then you would check for a spirit of alcohol. The same goes for other substances and addictions. If you cannot stop masturbating, then check for a spirit of masturbation. If you have chronic pain in an area, add that to the list and address the demon by its function, such as, "entity creating back pain."

Recording the Deliverance

It is a good idea for the person being prayed for to record the deliverance session in case important information is gleaned that may be useful later. If you are uncomfortable with this, then someone could take notes, though this will slow down the process.

General demon removal prayer strategy

Clean House

Before you attempt to remove the demons from a person, the candidate needs to resolve to dedicate his or her life completely to the Lord Jesus Christ. They cannot have one leg in Satan's kingdom and one in God's and expect to be free. Every element of the occult, including fantasy books like Harry Potter, Game of Thrones, etc., needs to go. A good environment for deliverance is one that is well prayed over, is physically immaculate with no dust or dirt or clutter, and with good air purification using an air purifier and a diffuser with lavender which deters the demons. It is a good idea to pray the house cleaning prayer and some of the other prayers before attempting deliverance.

Step 1 - Pray a salvation prayer.

Even if you believe that you have been born again, it never hurts to pray this prayer. "Lord Jesus Christ, if I have never invited you into my heart before, I am doing so now. Please forgive my sins and save my soul, in Jesus' name."

Step 2 - Repent.

Make sure that you have repented for obvious sins things that you know are wrong.

Step 3 - Submit yourself to the authority of the Lord Jesus Christ.

If someone is helping you, then both individuals should do this. Pray "Father, we submit ourselves to the authority of the Lord Jesus Christ and ask the Holy Spirit to help put pressure on any evil entities inside."

Step 4 - Speak to the demon out loud.

If you are alone, speak out loud, or if you have a prayer partner, have them speak to the demon. The key is, when the demon speaks in your mind, vocalize out loud to the other person what you hear in your head, even if it is offensive (it usually will be). Every time that the demon speaks, you will speak out loud what you hear. You will basically be having a dialogue with the voice that you hear in your head. Then ask the demon a series of questions, or have your prayer partner do this interrogation process:

Ask, "What is your name?" They rarely tell their name, because it gives you leverage over them. You can move on. Ask them "How did you get in?" "How long have you been there?" "What have you been doing to this person?" "What have you been telling them?" "Do you have any legal right to be there?"

Sometimes you may get to the answer quickly, other times they will evade you. The main thing that you want to make sure that you have done is to find out if there is some sin that you need to repent for before the demon can leave. If there is, repent, then return to the dialogue. If you get no answer, proceed to the prayer below:

Step 5 - Get the demon to recognize the authority of the Lord Jesus Christ.

When you are ready to remove the demon, there are two important steps that follow. First, you must get the demon to acknowledge the authority of the Lord Jesus Christ in the prayer recipient. If they will not, then ask the Holy Spirit to compel them to acknowledge his presence. Then ask the demon again to recognize the authority of the Lord Jesus Christ in the prayer recipient. They should then say yes.

If the demon is creating physical pain, stomach upset, or other discomfort in your body, you might ask the Holy Spirit to let the demon feel in its body and all of its cohorts the same pain that you are experiencing, amplified.

Step 6 - Get the demon to admit to surrender and defeat by the Lord Jesus Christ.

From there, the next point is to get them to admit to complete surrender and total defeat by the Lord Jesus Christ. Ask them, entity, do you admit to complete surrender and total defeat to the Lord Jesus Christ? The answer should be yes. If not, ask the Holy Spirit to again compel them to recognize their defeat, and ask again.

Step 7 - Final demon removal.

The final step is the removal step. Tell the entity: "In the authority of the Lord Jesus Christ, I command you to go directly to the lake of fire, according to the Lord's will." They may put up a fight, but they do not have a choice in the matter. They are counting on you wavering and not knowing that they have no choice but to obey. Then follow up with: "Holy Spirit, thank you for sending this entity away. Please send every evil spirit inside of me now to the Lake of Fire, or wherever you would have them to go, according to your will. Amen."

As a follow up, pray: "Holy Spirit, your word says that you are an all consuming fire. I pray that you would place an all consuming fire on every evil spirit in my body now. I loose spirits of judgment, burning, destruction, blindness, deafness, dumbness, civil war, and fragmentation on every evil spirit power inside. Lord, in the same way that Daniel killed the serpent, I ask that your angels would go inside and do the same thing to every serpent in my body. I loose your giant sperm whales to attack every spirit of witchcraft and all occult spirits in Jesus name. Please pull every evil thing out of me from the bottom of my feet to the top of my head and everything in between. Please pull them out of my mouth and other gates. " I praise you and thank you for your help Lord. Amen. This may result in burps, yawns, gas, and trips to the bathroom.

Continue this checkup every day until you no longer hear any negative feedback to the demon checks above. Periodically check up and make sure you have not picked up any new entities. You can do this for your children, family, and friends to help them get free. The Lord has made the husband the head of the family, so if possible, the father should pray for his wife and children, though even children can command the demons out and in the authority of Jesus they will leave.

You will be amazed at the results of these prayers.

Prayer Strategy to Remove Familiar Spirits.

When a person is abused physically, mentally, or emotionally, or is the intentional victim of witchcraft or ritual abuse, a familiar spirit of the abuser(s) usually enters the victim. Other demons may enter as well depending on the nature of the abuse. These spiritual entities can live inside of the victim forever if undetected, and will create many physical and mental problems for that person. This familiar spirit may be the staging point for witchcraft oppression on the individual, or at the least, whispering words and voices that seek to derail those who have given their lives to Christ. If you truly want to follow the Lord and enjoy Christian liberty, then these steps will greatly aid you in becoming a single minded, instead of multiple minded person. If you have been sodomized, that is, if someone has performed anal sex on you at any point in your life, then you likely have a familiar spirit of the person that sodomized you. Go after these first. Sodomy is not accepted by the Lord as an acceptable form of sex, not even for a husband and wife. If you have been deceived and engaged in this with your husband or wife, repent and remove the familiar spirit of the person who did the sodomizing. Many Christians are suffering from Satan's lies that these things are ok. Fantasy, especially sexual fantasy, is a primary way that a person may get a familiar spirit, and is a form of witchcraft. If you know of someone who may have been what the Bible calls a "filthy dreamer" then you might investigate to see if they are inside of you. A filthy dreamer is someone who was fantasizing and thinking of you while pleasuring themselves sexually. God knows our thoughts, and Jesus Christ warned that to lust after a person in our minds is the same as committing adultery with them. God makes it clear that it is not ok to fantasize about other individuals, not while single, or within a marriage. To have sexual relations with your wife while thinking of another person is adultery in the Lord's eyes. There are serious spiritual consequences involved that few people realize when we break God's laws. We need to repent and remove the familiar spirits and demons that have gained entrance to our lives as a result of breaking God's laws.

If you are the victim of Satanic ritual abuse, then check for the spirit of legion, which can be installed when a person is abused sexually by many people at one time. Spirits of panic, fear, stress and other demons can also enter at the time of these rituals.

When a person is ritually abused, their spiritual hedges are broken down and Satan can then fill this person with the familiar spirits and much evil. If you were ritually abused at a young age, ask God to show you what familiar spirits have made their way into your spirit. Make a list of your old and current teachers, classmates, friends, act ivies, and coworkers. These may be candidates for remove through the process listed below. You may need to pray out an entire group of old classmates, friends, or coworkers one by one in order to get free. It is time consuming, but worth it.

In order to get free from unwanted voices and physical ailments, it is necessary to call on the power of the Holy Spirit to get free from Satan's prison. God's word says that it is not by might, nor by power, but by my Spirit saith the Lord of Hosts. The Holy Spirit may bring a person to your mind in a vision, or he may give a word of knowledge to the prayer recipient or prayer partner. If you are sensitive, then you will not miss important clues and direction given by God. Invite the Holy Spirit to direct the prayer session.

Make a List of Candidates for Prayer.

Start by making a list of the people who you feel have hurt you the most in your life. If you know that you were sexually abused by anyone, they should be on the top of the list, and whoever is praying should check for their presence first. Do not leave anyone out. Anyone who was in the occult should be on the list. Past emotional and sexual relationships should definitely be included. If you have recurring dreams about certain people, these are good candidates to add to your list. If you are emotionally tormented by voices from anyone in your past, add them to your list. List close friends and family who were not Christian or were Christian in name only. Pastors or leaders who hurt you are good candidates as well. You might start by making this list and numbering it. Then pray and ask the Holy Spirit to direct which familiar spirit he would like removed first, or which one is creating the most problems for the prayer recipient. He may give you a name or a number on the list, or a vision of the person he would like you to remove.

What if You Cannot Remember a Person's Name?

If you cannot remember names, then you can use other information, the Holy Spirit will know who you are referring to. For example, you might say, "man from trip to London" or "woman from past job" to indicate someone that you cannot remember the name of. It is much better to do this than to not pray to remove this person.

This is a basic approach to removing the familiar spirits that may be residing in a person. It is important to let the Holy Spirit lead the process, since he knows what we do not. Be sensitive to thoughts that come to your mind and the [Prayer recipient]'s mind. The Holy Spirit may give you direction and information about how to bring deliverance and freedom to the person you are praying for.

This prayer approach is most helpful in a setting with two Christians who are fully surrendered to God and believe that God can free them. Belief and honesty are big obstacles to freedom with this method. If you are having trouble, ask God to help show you what is impeding you. The prayer partner is the person who directs the prayer while the prayer recipient is the person who is being prayed for. If you cannot honestly tell the prayer partner what comes to your subconscious mind, then you should consider finding someone who you can confide in. It is best to not censor what you hear in your subconscious, even if it is vile. When dealing with the demons and familiar spirits, they are often vulgar, so be prepared. The more honest you are, the more freedom you will receive. God honors our honesty, especially when it is combined with a spirit of true repentance.

Be specific, to avoid confusion, name the person you are talking to in each question (Holy Spirit, subconscious mind, Prayer recipient, or familiar spirit).

Specific deliverance prayer format for removing familiar spirits and demons

Prayer Partner and Prayer Recipient: Start by praying the Lord's prayer together: Our Father, who art in heaven, hallowed by thy name. Thy kingdom come, thy will be done, on earth as it is in heaven. Give us this day our daily bread, and forgive us our trespasses, as we forgive those who trespass against us. Lead us not into temptation, but deliver us from evil, for thine is the Kingdom, and the power, and the glory, forever. Amen.

Next, pray a quick salvation prayer. Some people who think they are born again are not. Even if you believe that you have been born again, it cannot hurt to pray this prayer.

Prayer Partner: [Prayer recipient] Please repeat after me: "Lord Jesus Christ, if I have never invited you into my heart before, I am doing so now. Please forgive my sins and save my soul, in Jesus' name."

Prayer Partner and Prayer Recipient: We declare that our bodies are bought and paid for by the blood of Jesus Christ, and that any entity not of the Lord here is trespassing. The Bible says that deliverance is the children's bread, Holy Spirit, please help to bring freedom to us **[Prayer recipient]**.

Next, both parties should submit themselves to the authority of the Lord Jesus Christ.

Prayer Partner: Before we begin, I submit myself to the authority of the Lord Jesus Christ and ask the Holy Spirit to take control of this process.

Prayer Partner: [Prayer recipient] do you submit yourself to the authority of the Lord Jesus Christ? (The answer should be yes, I do.)

Next, pray for God to help establish communication between the the prayer recipient and the familiar spirit or demon. This is an important step and will make the whole process go much smoother. Failure to do this step may result in lots of wasted time.

Prayer Partner:

- Holy Spirit, please create a clear line of communication between **[Prayer recipient's mind]** and the familiar spirit being prayed for (if you know their name, state it).

- Holy Spirit, please shield and protect that line of communication and remove anything that may try to interfere or block it during this process. Please cover this line of communication with the blood of Jesus, a wall of fire, a hedge of thorns, and angels to attack and remove all interference.
- Holy Spirit, please compel these familiar spirits to answer truthfully, in a timely fashion, and use force if necessary to get to the answers.
- Holy Spirit, please amplify the voice of the familiar spirits and demons so that [Prayer recipient] can hear them clearly in their mind.
- Holy Spirit, please repeat the responses of the familiar spirits if necessary so that [Prayer recipient] can hear them clearly in their mind.
- Holy Spirit, if it pleases you, please show us what these entities look like in the spirit so we know who we are dealing with. (During prayer, you may have a waking vision of a snake, a dragon, a witch, or some other entity. God is showing you who the person really is in the spirit world, what we can never know without his help. Be sensitive, and if you notice something like this, tell the other person so they know what they are dealing with).

Prayer Partner: [Prayer recipient], do I have permission to talk to your subconscious mind? (The answer should be yes, I do.)

Prayer Partner: Subconscious, how are you doing today?

Prayer Partner: Subconscious, what comes to mind when I say, "national flag?"

Prayer Partner: Subconscious, what do you think about the Lord Jesus Christ?

Prayer Partner: Subconscious, do you know if the [Familiar spirit of [name]] is in [Prayer recipient]?

Prayer Partner: Holy Spirit, you are the Spirit of truth. Please help us to bring truth and freedom to [Prayer recipient].

Please facilitate the identification and removal of things bothering [Prayer recipient].

Prayer Partner: Holy Spirit, your word says that there is nowhere in all of creation that we can hide from you. I thank you and praise you that this is the truth. Please help us by going to the location of the [Familiar spirit of [name]] and compel them to tell the truth. If they are sleeping, please wake them up, if they are hiding, please find them and bring them to attention. We need your help to do what we cannot do, and we give you all the thanks, praise, honor, glory, and credit.

Prayer Partner: [Familiar spirit of [name]] are you in [Prayer recipient]?

Prayer Partner: [Familiar spirit of [name]] how long have you been in [Prayer recipient]?

Prayer Partner: [Familiar spirit of [name]] when did you enter [Prayer recipient]?

Prayer Partner: [Familiar spirit of [name]] what have you been trying to do in [Prayer recipient's] life?

Prayer Partner: [Familiar spirit of [name]] what have you been telling [Prayer recipient] in his mind?

Prayer Partner: [Familiar spirit of [name]] what have you been doing to [Prayer recipient's] body?

(Some additional questions that you might ask are: Have you been draining their energy? Have you been giving them dreams or nightmares? Do you engage in occult practices?)

Prayer Partner: [Familiar spirit of [name]] what is your ultimate goal?

Prayer Partner: [Familiar spirit of [name]] are you the strong man in [Prayer recipient]? Who is the strong man in [Prayer recipient]?

- if there is another strongman named, then go through this process with that entity.

Prayer Partner: [Familiar spirit of [name]] do you recognize the authority of the Lord Jesus Christ in **[Prayer recipient]**?

Prayer Partner: [Familiar spirit of [name]] do you admit to complete surrender and admit total defeat by the Lord Jesus Christ?

(Troubleshooting no response, contrary responses: If the entity does not answer these questions, then you will need to rely on the power of the Holy Spirit and spiritual warfare prayers and song to compel them to respond. Many powerful entities will resist you and be quiet, others will not admit defeat and be arrogant. The first line of response when met with no response or resistance, is to ask the Holy Spirit to compel the entity to respond. If there is still no success, ask the Holy Spirit to show the entity the great imbalance of power, their weakness compared to his great power. If this does not work, ask the Holy Spirit to let the entity feel absolutely miserable. "Holy Spirit, please let this entity feel fiery darts all over its body. Shooting pains, a racing heart, take the air from its lungs and replace it with painful gas bubbles. Give it itching and burning all over its body, a massive headache, nausea, dizziness, and cold sweats. After a little time has passed, repeat the question until the entity admits defeat. Singing "Oh the Blood of Jesus" a few times during this process will greatly help.)

Prayer Partner: [Familiar spirit of [name]] in the authority of the Lord Jesus Christ, I command you and all of your kingdom and subordinates to leave **[Prayer recipient]** immediately.

Prayer Partner: [Familiar spirit of [name]] I command you to gather up and remove everything that you have brought into **[Prayer recipient]** and be cast into the lake of fire now. Be gone!

(After the familiar spirit has been removed, ask the Holy Spirit to help the **[Prayer recipient]** to create a clear channel so that they can hear clearly from their subconscious mind in case anything is trying to block it, just as we did with the familiar spirit).

Prayer Partner: Subconscious, is the **[Familiar spirit of [name]]** gone?

Prayer Partner: Subconscious, what was the **[Familiar spirit of [name]]** doing to you?

Prayer Partner: Subconscious, how do you feel now that they are gone?

Prayer Partner: Holy Spirit, thank you for sending the **[Familiar spirit of [name]]** and all of his subordinates to the lake of fire.

Prayer Partner: Holy Spirit, please restore **[Prayer recipient's]** soul and bring healing to **[Prayer recipient's]** mind, will, and emotions.

Prayer Partner: Holy Spirit, please continue to show **[Prayer recipient]** any other familiar spirits that are creating bondage in **[Prayer recipient's]** life.

Prayer Partner: Holy Spirit, thank you for the freedom that you have given **[Prayer recipient]**. We give you all the honor, praise, and glory in Jesus name.

Repeat the process for the next familiar spirit. There may be many, but the results are worth it, physical health and sound mind, and closeness to the Lord Jesus Christ.

Relying on the Holy Spirit

Without the Holy Spirit, we cannot overcome the spiritual evil in our lives. When praying these prayers above, remember to call upon the power of the Holy Spirit when you encounter difficulty and trouble.

Below are some important prayers to include before beginning the process outlined here.

- Holy Spirit, please create a clear line of communication between my mind and the familiar spirits being prayed for.
 - Holy Spirit, please shield and protect that line of communication and remove anything that may try to interfere or block it during this process. Please cover this line of communication with the blood of Jesus, a wall of fire, a hedge of thorns, and angels to attack and remove all interference.
 - Holy Spirit, please amplify the voice of the familiar spirits and demons so that I can hear them clearly in my mind.
 - Holy Spirit, please repeat the responses of the familiar spirits if necessary so that I can hear them clearly in my mind.
-

Deliverance Prayers Troubleshooting

Why does this removal process work in some cases and not others? It is important to remember that there are many factors involved when attempting to remove demons from people. First and most importantly, it is essential to recognize that Satan and the evil spirit world will do their very best to stop, or at the least hinder, this process, regardless of the situation. When you endeavor to free someone from Satan's influence, you will face opposition and spiritual interference. This is why sometimes this process works smoothly and other times it is more difficult. They do not want anyone to be free. They do not want to lose control and influence in people's lives. They do not want those who become free to help others. They do not want to lose the spiritual power that they are likely drawing from the person being prayed for. There are several factors that are of key importance. These are the environment where the praying is being conducted, the spiritual condition of the person being prayed for, and the spiritual condition of those doing the praying.

If you encounter demons that will not budge, then you can pray like this: BBB BBB BBB Bind everything bad in and around us. Repeat a few times. Then, pray: I loose spirits of judgment, burning, destruction, blindness, deafness, dumbness, confusion, civil war, fragmentation, the hornets, hounds, fowls, and every heavenly creature of the Lord to attack, attack, attack every evil spirit in and around us here, in the air above, the ground beneath, and all around. I pray RCC-SWA-A inside and outside of us.

Deliverance Prayers Troubleshooting Environment

The environment that you are praying in can play a pivotal role in the success or failure of deliverance prayers. Evil spirits are assigned to both people and to locations. If evil spirit powers have entered your environment, then you will not be successful until they have been removed. If this is the case, you might try moving to another location. Continue trying different locations until you are successful. If evil spirits are in an environment that was once a fertile ground for prayer and deliverance, then pray over each room using the house cleaning prayer on this site. Seek the Lord in prayer as to what needs to be done to cleanse the location. Conduct aggressive spiritual warfare in each room, sing and pray over the house, and in time the evil power will break and you will be able to resume praying in that location. Until then, go somewhere else to pray, such as a park or a quiet area. The more people and distractions in the area, the less likely you are to be successful.

Another possibility is that someone has brought something into your environment that has brought a curse or opened a spiritual door for evil on the location where you are praying. For example, if someone brings some occult books, music, movies, or other items, then this may be enough to stop the process from working. If you are praying for someone, make sure that they do not bring occult items into the location where they are being prayed for, including clothing and jewelry.

Deliverance Prayers Troubleshooting People

While people take up a finite amount of physical space in the natural world, what most people do not understand is that inside each person is a vast spiritual realm. A single person can be the home of thousands of spiritual entities. When you seek to begin deliverance and remove a single entity, the other residents will do their best to interfere and block the process. This is where it is important to rely on the Holy Spirit, and aggressive prayer, to do battle with those lesser entities that seek to shield and deflect progress from removing the more powerful spirits.

Aside from the evil spirits in people hindering the process, if a person is still engaging in willful sin in their lives and is not willing to completely surrender to Jesus Christ, then they will likely encounter difficulty with these prayers. Honesty is required, and if no progress is being made, the person may need to repent and show the Lord that they are serious

for some time and then return and attempt the prayers again with genuine repentance and a changed life. Fasting for a day or more will go a long way to showing the spirit world that you are serious, and will also weaken the evil spirits inside of you. It does little good to pray to get free and then go back to living the same lifestyle.

Doubt and unbelief may also play a key role in someone not getting deliverance. If a person does not believe that they can be delivered in the way outlined above, it is doubtful that they will get any help. If you have an honest desire to overcome your doubt, then ask God to help remove your skepticism and give you the faith to overcome your unbelief so that you can be free.

It goes without saying that the person who is leading the deliverance prayers needs to be living a clean life free of willful sin and disobedience. The longer you have been walking with the Lord, the more you will experience his spiritual power in your life. A good candidate for conducting the prayers is a person who is genuinely seeking and serving the Lord. You do not have to be perfect, but doing your best to resist sin and temptation in your life.

The three most important things to do as the foundation of a Christian life are to :

- 1) Pray daily before going to sleep for protection at night from witchcraft attacks in your dreams and while sleeping. This will ensure that you do not accumulate more demonic and witchcraft bondage.
- 2) Work towards deliverance for yourself and family. Peel back the layers of witchcraft and demonic accumulation from the time in your life before you knew to pray for protection daily. Remove demons, and the familiar spirits of witches and people who have abused you in your life. Depending on your work and family situation, you may have a lot of work to do, but it is worth it. This is the sanctification process.
- 3) Come apart and be separate from evil people, groups, and organizations. Blessed be the tie that binds our heart in Christian love, cursed be the tie that binds us to anything else.

From here, you will hear God's voice more clearly, begin to operate in the spiritual gifts, and have a better sense about how God wants to use you.

Sleep, the Time When Witchcraft Powers Attack.

Most people lock their doors and some even invest in expensive alarm systems to protect their houses at night. Others may keep a weapon on hand to defend against home invaders. These steps all help to protect our physical bodies. But what about our soul, mind, will, and emotions? What about the evil spirit world?

One of the most important questions to ask is, do you have spiritual protection when you enter into sleep at night? It does not matter if your house has all of the latest security devices, motion sensors and cameras. Living next to a police department will not save you from witchcraft and satanic attacks at night. An entourage of armed body guards outside your room will not be able to help you either. Buddha, Allah, or other religions offer absolutely zero protection from the evil spirit world. Only the Lord Jesus Christ can shield you from demons, witches, and those who seek to destroy your soul for advancement in Satan's kingdom.

Temporal Spiritual Security, Eternal Spiritual Security

Only prayer and God's power can protect you from evil powers attacking you while you sleep at night. Why should you care about being attacked by the occult world? Because the occult world seeks to dominate, control, influence, and manipulate you, all without you knowing. They will use you and steal your personal power while compromising your health. Victims frequently become physically sick and their bodies will suffer. They will subtly steer you into directions you would not normally take. They will suggest thoughts in your mind and block you from hearing the Holy Spirit, experiencing God's presence, and operating in the spiritual gifts.

Spiritual protection is one of the main benefits that following God provides. Some people may think that following the Lord has no tangible benefits in this life. This is a lie. It is also the case for people who do not know the spiritual rules

that God has set in place. We must pray, and then we receive the protection that only an all powerful God can provide. The only true peace and security in life is found in the Lord Jesus Christ.

Many of these evil powers do not only attack once and leave. Many permanently reside within your body to do you physical and mental harm forever. These entities are the source of many of the health issues that people encounter throughout their lives. Many of those who experience voices and multiple personalities are actually suffering from witchcraft attacks. Of these attacks, many entities enter and reside in your body that are the familiar spirits of people who are having filthy dreams and fantasies about them, or are abusing them in some other way.

Once these people get inside their target, they can reside there forever, unless you know how to ask God to remove them through prayer. They can subtly influence your mind and your thought patterns, pushing you toward decisions you might not normally make. You may wake up wondering why you cannot get a certain person that you do not normally think about out of your head. This is a symptom of a witchcraft attack. You may notice that you are suddenly attracted to a person you previously never found attractive. You may wake up suddenly having homosexual thoughts that you never had before. These are examples of witchcraft attacks. Many of the problems people experience today are rooted in the evil spirit realm.

A person who does not know about the spiritual reality described here has likely accumulated a lot of spiritual "baggage" that is contributing to physical and mental health disorders, and also blinding their minds to the truth of the gospel and the Lord Jesus Christ. Thankfully, there is deliverance and freedom available through God, who will release us from Satan's prison if we ask with the right heart and a spirit of repentance.

God Shows our Problems in Dreams

God is good to us and frequently uses dreams to communicate things to us. God often shows us the source of our troubles through our dreams. It is a good idea to buy a voice recorder and document your dreams as soon as you wake up. Who is appearing in your dreams? What are they doing to you? Take note of these people. Go through the prayer steps below to check for and remove the familiar spirits of those in your dream. Pray for God to help you remember your dreams, and to show you the source of your spiritual problems.

Filthy Dreamers

If a person goes to sleep at night, and someone they know goes to bed and fantasizes about them sexually, then without God's protection, a part of that person (the filthy dreamer) can get into the person they were fantasizing about. This is a serious problem, because those fragments stay in that person, causing torment and physical health problems. God's word teaches us that when a man and woman come together, they become one flesh. When someone has a sexual fantasy about another, then he or she has committed adultery with them in their heart and mind. Both individuals suffer in this case. If the victim of the fantasy prayed for God's protection that night, they would not have been spiritually infected, but if they are not under God's protection, they will suffer from having a spirit of their abuser inserted in their being, which can only be removed through prayer.

Many people do not realize or understand that there is an evil spirit world that goes into action at night. If you do not have God's protection, you are an easy target for the occult world. Being a Christian does not automatically guarantee you protection. Some people think that because they accepted Christ, they get automatic protection and that they do not need to pray. These people have been deceived.

Like salvation, God's protection is something that we must ask for. God promises to protect us, but our role is to ask for that protection daily. We eat daily for nourishment, and likewise we must pray daily for spiritual nourishment and protection. Failure to pray daily for protection will leave us wide open to Satan's devices and attacks. Satan uses those who are disobedient and rebellious around you to try to weaken, and if possible, sideline you from God's service. Anyone who is not obedient and following God is a candidate to hurt you. Satan really does not mind people becoming Christian as long as they do not pray, because a prayerless Christian poses no threat to him whatsoever, and is an easy target. Prayerlessness is powerlessness.

The most important thing that a Christian can do daily is to pray for protection from the evil world during the day time and most importantly at night time before going to sleep. It is important to pray both day and night, but night time would be the most important time to ask for God's protection due to the vulnerability of sleep.

Wise Christians who want to be shielded from evil powers should pray for personal protection and for the protection of their family, the body of Christ, their leaders, and all who God has called. We should pray for God to place a wall of fire on every side around our homes and to shield us in our dreams from night intruders. Pray for God to protect your body, soul, spirit, and conscious, subconscious mind from evil intruders.

If Christians fail to pray for protection from night attacks, witches and occultists can and will infiltrate their lives. Then, the other Christian activities that they engage in will eventually be weakened and eroded. This is like the parable of the sower, where Satan stole the seed before it could take root. Our goal as Christians is to live a victorious life of service to God. As soon as we set out to do that, Satan steps in to oppose us at every turn. He uses the demonic world, and he also uses the humans in the occult world, and all who are in rebellion against God to hurt Christians. We need to persevere until the end, but Satan would like to take us out early if possible.

The goal of witchcraft is to control and compromise people who pose a threat to Satan's kingdom. If you are not praying for protection, you are vulnerable. If you have not prayed in the past, then you likely need to pray for deliverance from the familiar spirits that are installed by witchcraft powers.

Night time is the most dangerous time of the day. Evil powers operate at night. Witches and warlocks, Satanists and occultists operate at night.

The evil world attacks unsuspecting people at night. Unless you have God's protection, you will be a victim of the evil world.

One of the main ways that evil people can attack other people is in their dreams. When you are sleeping, you are the most vulnerable. Your defenses are down, and evil people project into people who are their victims and targets who they wish to dominate or control.

Who is a witch?

Rebellion is as the sin of witchcraft.

That means that anyone who is not obedient and placing God first in their lives is, according to the Bible, is practicing witchcraft.

Satan is the spirit that operates in the children of disobedience.

Disobedience and rebellion are characteristics of witchcraft.

There are varying degrees of witches.

A person who is not following God and seeks to manipulate, dominate and control the members of their family and friends would be on one end of the spectrum.

A person who is seeking occult and witchcraft power from Satan through the practice of rituals and sacrifices is engaging in witchcraft on the other end of the spectrum.

Satan can use both of these people. These people know what they are doing, and intentionally set out at night to do harm to others.
